Speaking Topic #1

“3 Simple Systems You Must Implement to Grow a Million Dollar Business”

The most pressing question from small business owners right now is "How to get out of overwhelm" and "How to continue to grow their business".

So how do you do it? How do you continuously grow your business and have more time?

The biggest mistake small business owners make is they get distracted with working in their business and not working on their business. Then they begin growing and building their team without the back office foundation set for growth and success. They bring team members on when they need them but don't have the necessary processes outlined for the success and continued growth of everyone involved.

This presentation will teach you only what you need to know right now...How to get out of overwhelm and systemize within your business.

Then once you have the systems in place and the ability to create new systems as needed you can implement additional strategies. But if you don't do the basics on what works and will bring results then you will be just spinning your wheels continuously not seeing the time you want back and as you build your team they will continuously fail due to no fault of their own. And to release the stress of overwhelm you may have to go back to your JOB. You may have to give up your dream of being an entrepreneur and having all that entrepreneurship has to offer.

Attendees will learn and be able to immediately implement:

- How to increase productivity in less than 30 days
- Simple 3-step system business owners need who don't know where to start or how to get it done
- How to put all of this into a smooth running system so it actually gets done

Why you will want to attend this presentation and what you'll get out of it:

Stop stressing and being overwhelmed about running your daily operations and what to do next. Instead learn a simple system to start, grow, and run your business that allows you to attract more ideal team members to continue to grow your business. Stop having to slow down and bring every new member up to speed on how things are done.

Attendees will benefit tremendously from this presentation such as:

- No more guessing at what will work and what won't
- No longer have the feeling of being overwhelmed
- Focused and clear action steps you can implement now to get more time back
- Clarity on what next steps you really need to take and what can wait
- Empowered as a thought leader about the way you run and grow your business

The bottom line is that Felicia is going to show you an effective approach to build systems to grow your business successfully.

So many entrepreneurs are struggling in their business. They don't know what steps to take or how to begin building systems that work or if they will work as they create their teams for future growth.

Now is the time to take action get quality information that will get you moving in the right direction and she'll tell you what to do first, second, and third.

Whether you're running a new business, thinking of starting a business or have been in business for a while, you will learn something by joining us on this call or in person.

Speaking Topic #2

“Stop Avoiding Creating Systems In Your Business”

Here's a step-by-step presentation on how to set up your systems.

Admit it...you have been avoiding putting your systems down in writing.

I know because the majority of small businesses do. You do realize that your employees, independent contractors, and team members can not read your mind. You're probably missing out on joint venture opportunities or referrals. **Lack of systems could be costing you money.**

The bottom line is that Felicia is going to show you an effective way to build your team and grow your business.

So many small business owners are struggling in their business...They don't know what step to take next or where to turn for mentoring.

Now is the time to take hold of the quality information that will be provided from someone that has grown a business from start-up to making multiple millions in record time.

Whether you're running a new business, thinking of starting a business or have been in business for a while, you will learn something by joining us on this call or in person.

Why these topics are essential knowledge for business owners?

The Small Business Administration (SBA) reports show that 8 out of 10 new businesses fail within the first three years. 80% of new businesses fail within the first five years. And more than half of new businesses disappear in the first five years.

My mission is to change the game. Entrepreneurship offers life changing opportunities for all and especially women. It allows them to change the game not only for themselves, but for their children and the children of the future. It allows women to find their voice, independence, and live their dream lifestyle and a line it with their passion. Now that's truly living.

Therefore, I talk on these two particular topics because two of the most crucial mistakes women business owners make and that we see all the time in our business are:

1. Not being able to let go of the day-to-day operations to focus on the bigger vision...this is the lone ranger syndrome
2. Not knowing how and what to delegate to build an effective team

By choosing either of these topics you will be doing your attendees a huge favor in helping them grown their businesses, especially in these economic times today.

With the proper systems, delegation, and teaming building business owners will have ten times the chance of surviving in business and even a better chance of thriving beyond their biggest dreams. And as I always say...why not a million!
